

Create your eVisit account today and do your next appointment online!

Here's how to get started:

1. Get on your pc or laptop and download the internet browser Google Chrome or Firefox.
2. Go to web address: [http:// app.evisit.com/#/enroll/yourproviderspractice](http://app.evisit.com/#/enroll/yourproviderspractice)
3. Create an account with your preferred email address and password.
4. Fill out your personal information and answer any required medical questions.
5. Click the blue **Start Visit** button to request your first virtual visit!
6. Click on the pop-up that appears to download the eVisit app in your app store.
7. When the application is downloaded, open it up and login with the credentials you used to create your account earlier.
8. Once you're logged in, you'll be put into the virtual visit while your provider is reviewing your information.
9. When your provider is ready to see you, a join button will appear at the top of your screen. Click on the **Join** button to start your visit.
10. Enjoy! ☺

Visit Patient Registration Process
